

ABT Sportsline 2014 – Press release CW05 **Cult movement – the “ABT T5 Sporting Van“ promotion model**

The new Johann-Abt-Street in Kempten is one of the most popular bus stops in Germany – at least for the VW T5. After all, tuning products for this cult bus are among **ABT Sportsline**'s real best sellers! Wouldn't have thought so? Well, once you see the result you know why. And the demand could even grow further, for the new “**ABT T5 Sporting Van**“ promotion model is available at a sensational discount of almost 20 per cent – on the sum of its parts.

“Our customers get a front guard, rear spoiler, suspension springs and a 20” **CR** wheel set, including assembly and paintwork” says CEO **Hans-Jürgen Abt**. This attractive kit's body parts let the T5 fully stand out from its category. Welcome to a dynamic lifestyle lounge on wheels! The mighty 20” **ABT CR** wheels complete the look and have the right dimensions for such an assertive car. Their double spokes unique geometry and the wheel rims' finish – an interplay of “mystic charcoal matt” and a diamond-machined front – also make for much harmony.

The “sporting” part of the car's name also finds expression in its handling. With the **ABT suspension springs**, the T5 doesn't only look very dynamic but also handles as well as any passenger car. That's how a successful spatial concept should look like.
