RSQ8-LE
10000

The final chapter. 1,000 HP. Limited to 30 units

THE RSQ8-LE 1000 COMPLETES THE ANNIVERSARY TRILOGY

There are figures you simply read. And then there are figures that take your breath away.

1,000 HP in an SUV. That's not just a power upgrade. It's a redefinition of what an SUV can be.

At the heart of the final of the three anniversary editions lies the Audi RS Q8's 4.0-litre V8 biturbo engine, brought to this extraordinary level by our engineers through the ABT Power R performance upgrade.

This leap to 1,000 HP (736 kW) is achieved by fitting an ABT turbocharger and an ABT intercooler, as well as a complete engine overhaul including water/ethanol injection (IWI system).

The indirect injection system cools the engine intensively from within, creating more space for charge air and thus more oxygen in the combustion process.

The result: consistently available, reliable power. Exactly when you need it.

Conveniently activated via the myABT app, directly through Apple CarPlay or Android Auto in the infotainment system.

One tap. A thousand HP.

A sight that leaves no room for doubt.

UP TO 320 KM/H AND YOU'RE IN COMPLETE CONTROL

The ABT RSQ8-LE 1000 is both: pure power and precision.

The top speed is increased to up to 320 km/h, and the ABT Body Control System ensures that this performance is transferred to the road with confidence at all times.

It comprises ABT Level Control and ABT eAWS, an adaptive roll stabilisation system which, via servomotors on both axles, switches seamlessly between a comfortable long-distance set-up and sporty cornering dynamics.

Less body roll. Greater precision. A driving experience that combines the best of an SUV and a sports car in a single concept.

Carbon meets gold. Wide-body meets performance.

THE ABT RSQ8-LE 1000 ASKS NO QUESTIONS. IT MAKES A STATEMENT. VISUALLY, TOO.

The complete aerodynamics package in matt exposed carbon shapes the vehicle from the front lip to the rear wing, creating a cohesive overall look: front apron extensions with optimised airflow and air intake grilles, bonnet inserts, striking wheel arch extensions for the unmistakable wide-body silhouette, mirror cap extensions, B-pillar trim and a rear wing with aeroblades.

The wheel arch vents in gloss black and the 'RSQ8-LE 1000' emblem badges add the finishing touches.

The ABT High Performance IR23 forged alloy wheels in Satin Gold, fitted with 295/35 ZR23 tyres, provide a deliberate contrast. Gold on carbon. A statement that cannot be overlooked or forgotten.

The acoustic show is provided by the ABT stainless steel exhaust system with four distinctive 105 mm tailpipe trims. And the V8 sound is exactly as it should be: deep, unmistakable, inimitable.

Where perfection takes on a personal touch.

AN INTERIOR THAT PUTS THE DRIVER AT THE CENTRE

In the cockpit of the ABT RSQ8-LE 1000, every touch counts. The ABT steering wheel in Alcantara, featuring paddle shifters and a gear knob cap in matt exposed carbon fibre, forms the direct link between driver and machine, complemented by dashboard and seat frame trim in the same exclusive finish. The front seats feature the ABT logo on the headrests and the RSQ8-LE logo on the shoulder area. The door sills welcome every occupant with the lettering 'RSQ8-LE 1000', whilst the integrated door lights project the logo onto the floor. The ABT centre console offers the most personal touch: set into it rests the ABT anniversary coin, flanked by the individual engraving of the respective vehicle number.

Number 1 of 30. Number 17 of 30. Each vehicle is a documented one-off.

FACTS

ABT POWER ABT POWER R to approx. 1000 HP
incl. ABT turbo charger, ABT intercooler, engine conversion incl. water-ethanol injection (IWI system);
top speed 320 km/h

ABT AERODYNAMICS ABT front lip with RSQ8-LE logo (carbon matt)
ABT front skirt inserts (carbon matt) incl. optimized airflow
