ABT[®]

RS3 630

The Second Chapter of an Anniversary Trilogy. 30 Times. Worldwide.

630 HP. A FIVE-CYLINDER AT ITS ABSOLUTE PEAK.

130 years of ABT Sportsline – and the story gets more compact, more agile, more uncompromising. The RS3 630 is the second of three exclusive limited-edition models with which ABT is celebrating its anniversary, and it carries that responsibility with conviction. Only 30 units will be built worldwide.

There's far more behind the performance of the RS3 630 than our ABT Engine Control „AEC.“

The ABT POWER R performance upgrade takes the turbocharged five-cylinder from 400 hp (294 kW) and 500 Nm to a breathtaking 630 hp (463 kW) and 700 Nm – made possible by a new turbocharger, a high-performance intercooler, and a comprehensive engine conversion. At the core of it all is the ABT IWI System.

This indirect water-ethanol injection engages upstream of the engine's throttle bodies. A custom-developed electronic control unit precisely meters the mixture based on load condition and RPM. The injected mixture cools the intake air from within. The result: more combustion, more force, more power – consistent and stable. Even under full load, the engine never pulls back. It just keeps pushing. Relentlessly. All the way to a top speed of 300 km/h – delivering an impact you have to feel to believe.

Precision meets the road. Confidence in every curve.

ENGINEERED FOR 630 HP. SUSPENSION, SOUND AND WHEEL.

Anyone pushing 630 hp needs a suspension that thinks along. The coilover sport suspension of the RS3 630 features individually adjustable compression and rebound damping, precisely tuned by experienced ABT engineers to match the performance characteristics of this special-edition model. Sport stabilizer bars at the front and rear axle noticeably reduce body roll, sharpen driving precision, and deliver a dynamic driving experience – without compromising the everyday comfort that is synonymous with ABT.

At the rear, two dual exhaust tips in matte black, each measuring 95 millimeters in diameter, complete the presence of the RS3 630. They make a bold, unmistakable statement and signal – even at a standstill – what's waiting under the hood.

The 20-inch ABT HIGH PERFORMANCE HR20 forged wheels in satin gold pick up the golden anniversary aesthetic of the trilogy and give the vehicle an exclusive visual identity.

Tires sized 245/30 R20 transfer the power precisely and safely to the asphalt. Suspension, exhaust technology, and wheel come together to form a cohesive overall package that strikes the perfect balance between technical excellence and aesthetics.

Carbon and golden accents. Every detail tells a story.

AERODYNAMICS IN ONE PIECE. DESIGNED IN KEMPTEN.

The RS3 630 demonstrates how function gives rise to beauty. The aerodynamics package is crafted entirely from carbon and finished in gloss black. It sharpens the silhouette while delivering aerodynamic precision at the same time. The front spoiler, including the aeroblades, bears the „RS3 630“ logo – making the character of this special edition unmistakably clear right at the front of the vehicle.

Every Component Justified in Form. Deliberate in Effect.

At the rear, the rear skirt insert with its matching emblem badge completes the overall appearance and brings the look of the RS3 630 to a consistent close.

As exclusive on the inside as on the outside. 1 of 30. Unmistakable.

AN INTERIOR THAT CARRIES ITS UNIQUENESS.

The experience begins the moment you open the door. Door sills strips bearing the „RS3 630“ lettering and atmospheric integrated entrance lights welcome the driver with the awareness of stepping into something truly special. The front seats and the center armrest are individually refined, creating an atmosphere that does justice to the vehicle. Floor mats with an embroidered „RS3 630“ logo and the ABT start-stop-switch-cap add further accents that make the interior feel like a unified whole. On the dashboard, the emblem badge reading „1 of 30“ captures in an instant what defines the RS3 630: there are only 30 of them in the world.

Every detail inside the cabin is a deliberate choice – a commitment to the craftsmanship that has been lived and breathed at ABT for more than 130 years. The RS3 630 is not a vehicle you own. It is one you preserve.

FACTS

ABT POWER	ABT POWER R upgrade to approx. 463 kW (630 HP), 700 Nm incl. ABT turbo charger, ABT intercooler, engine conversion incl. water-ethanol injection (IWI system), top speed 300 km/h
ABT AERODYNAMICS	ABT front spoiler incl. front blades (carbon glossy black) with 'RS3 630' logo ABT rear skirt inset (carbon glossy black) incl. emblem badge 'RS3 630'
ABT EXHAUST	ABT 2 x double end pipes stainless steel matt black, Ø 95 mm
ABT SUSPENSION	ABT height adjustable suspension kit ABT anti-roll bars
ABT WHEELS	ABT HIGH PERFORMANCE HR20 forged rim satin gold with tyres 245/30 R20
ABT INTERIEUR	ABT seat refinement front ABT refinement of armrest ABT door sills 'RS3 630' ABT integrated entrance lights ABT start-stop-switch-cap ABT floor mats with embroidered 'RS3 630' logo ABT emblem badge dashboard '1 of 30'

PACKAGE PRICE RS3 630 plus installation (9.500,00 € incl. 19% VAT) and TÜV approval	58.000,00 € (incl. 19% VAT)
COMPLETE VEHICLE PRICE RS3 630	from 137.200,00 € (incl. 19% VAT)
