In some cases, a TÜV certificate is only available at a later date. Please inform yourself before the performance increase whether the TÜV certificate for your vehicle variant is already available.

Please check the already installed tires with regard to the speed release. If the tire is not released up to the specified maximum speed, appropriate tires must be installed as an alternative to the ABT Power performance upgrade.

* Prices do not include VAT, freight charges and import costs.

FROM NOVEMBER 2014 ON ALL VEHICLES ARE EQUIPPED WITH A TIRE PRESSURE MONITORING SYSTEM.

1. Indirectly measuring tire pressure monitoring system: No sensors are needed in the rims, because the measurement is made via the tire circumference.

2. Directly measuring tire pressure monitoring system: The tire pressure monitoring sensors are installed directly in each wheel. Please indicate when ordering whether the vehicle has installed a directly or indirectly measuring system. With a directly measuring system, additional costs are incurred due to the integration of the sensors.

* Prices do not include VAT, freight charges and import costs.

ABT Suspension products may imply restrictions when mounted. You can find about applying restrictions (lesser lowering of suspension setting on vehicles with sport suspension ex factory or no mounting on vehicles with certain features etc.) in ABT Configurator, at ABT partners or directly at ABT Sportsline.

It is possible that additional costs occur when mounting ABT Suspension products. These costs are not implied with the general assembly costs. Current manufacturer instructions have to be followed.

* Prices do not include VAT, freight charges and import costs.
