

ABT Sportsline 2014 – Press release CW05 **Bavarian Action Heroes – 290 hp for Audi A4, A5 and Q5**

Apart from stylish design **ABT Sportsline** scores with innovative and high-quality engineering expertise which tickles out a tick “more” from many vehicles. For example, the latest upratings for the 2.0 TFSI engines of Audi models A4, A5 and Q5: “The increase of performance is not only adapted perfectly to the respective model on a dynamometer, thorough testing of the developed engines on the road is part of the service for us as well,” explains **Hans-Jürgen Abt**, CEO of the worldwide largest tuner of vehicles from the Volkswagen Group. And he adds: “Careful development is important to us, and every new engine generation entails higher requirements.”

This is where **ABT Power „New Generation“** comes in: increase of performance which is tuned especially to the characteristic features of modern engines. The **ABT Engine Control**, a specifically developed control unit featuring own **ABT software**, with immediate effect provides the sporty Audi A4, the models of the Audi A5 series as well as the dynamic Sport Utility Vehicle Q5 with a healthy portion of performance. At just under 30 per cent more power, the factory-set 225 hp/165 kW and 350 Nm turn into great 290 hp/213 kW and immense 420 Nm after **ABT** makeover. At **ABT Sportsline** it goes without saying that workshop updates can be carried out after the Bavarian tuning like in a series vehicle and the diagnosis functions are completely retained. After all, hardware and software form a perfectly harmonised unit, in which the topic of guarantee is a natural feature.

Naturally the traditional company also offers further tuning options for Audi A4, A5 and Q5: For every model, a suitable aerodynamics package has been provided, comprising exhaust systems, complete wheel sets in various designs, brake systems and chassis components in the product portfolio in order to make one’s own vehicle a bit more individual in design.

Suitability for daily use and safety always has top priority in all tuning features. With the new performance package, **ABT Sportsline** provides the three petrol-powered cars with their two litre engines a new maximum in dynamics and driving pleasure.
