

ABT Sportsline 2017 – Press release CW 08 **The ABT Audi S5 – middle-class car, top-class performance**

The second generation of the Audi A5 sport version has just recently appeared on the scene. **ABT Sportsline**, the world's largest refiner of vehicles for the Volkswagen group, would of course not miss the opportunity of engine tuning for the S5s three model variants. A considerable **425 HP (313 kW)** and **550 Nm** torque is available after a performance increase by the **ABT** experts.

The S5 coupé, the cabriolet, as well as the five-door fastback are able to take advantage of a 20% **ABT POWER** performance increase of the 3.0 liter V6 turbo engine. Despite the extra power, the Quattro's engines are not overloaded. **ABT Sportsline** therefore also offers the best warranty service: "We are confident in our work. The customer not only notices this but also benefits from it," confirms **Hans-Jürgen Abt**, Managing Director of the vehicle refiner.

As the performance is to be heard and felt, but not necessarily to be seen, the sporting cars from Ingolstadt receive discreet **ABT** emblems on the rear and the front grille. The **ABT sports rims** are another Power-Plus indication. Various 19 and 20 inch wheel rims are available in different colors. The highlight is of course the new 20 inch **ABT Sport GR** wheel rim available in "matt black" or "glossy black". Those who wish to accentuate the sporty look, can turn to the rear skirt set consisting of the **ABT** rear skirt add on and a special muffler system.

The **ABT** Audi also offers something different on the inside. The special character of the vehicle can be seen directly as the door is opened and the **ABT** logo entry lights project on the surface. And for the special something there is **ABT individual**, where almost every request can be fulfilled.

"**ABT** vehicles are not only quality at the highest level, but also offer extensive possibilities for individualization. Only this way we can continue to exceed high expectations", **Hans-Jürgen Abt** sums up his team's particular capabilities.
