

ABT Sportsline 2015 – Press release CW40 **Robust and stylish at the same time – winter wheels by ABT Sportsline**

When the beloved summer wheels go into hibernation in the “tyre hotel” or on the wheel rack, **ABT Sportsline** sees to an attractive replacement in form of winter alloy wheels with tyres sold at special prices. No wonder that its fans are still in a very sunny mood. “Our alloy wheels withstand road salt and harsh winter conditions and will look good in any season,” says **Hans-Jürgen ABT**, CEO of the globally largest tuner of cars produced by the Volkswagen Group.

Check out the **ER-C** alloy wheel (in silverbullet or gun-metal shades), the **CR** (in silverlight) and the **DR** (in gun-metal). Sizes range between 18 to 22”, thus covering compact cars (VW Golf, Audi A3, Skoda Octavia, Seat Leon etc.), the Audi A4, VW Passat, Audi TT, VW T5 but also the Audi Q7 and many others. The fitting tyres are high-quality winter tyres like the Dunlop SP Winter Sport 4D, the Vredestein Wintrac Xtreme and Nextreme or Pirelli Scorpion Winter.
