

ABT Sportsline 2014 – Press release CW28 **Speed meets space – the Volkswagen T5 promotion model by ABT Sportsline**

While many a marriage in its sevenths year goes through a crisis, the Volkswagen T5 is still loved after eleven years. **ABT Sportsline**, the globally largest tuner of cars produced by the Volkswagen Group, will now see to even more passion with its attractive new promotion package. “You now can get the front guard, rear spoiler, springs and a set of 20” **CR** wheels for a special price,” says an enthusiastic CEO **Hans-Jürgen Abt**.

Even in its serial version, a VW Transporter feels like a passenger car. Really sporty it gets with the **ABT springs**, which lower the car’s CoG. It goes without saying that this does also improve the vehicle’s look. In conjunction with the mighty 20” **ABT CR** wheels, the car is turned even more sporty. And the unique geometry of the double spokes and the wheel’s finish – an interplay of “mystic anthracite matt” and diamond-relieved front – make for a harmonious relationship.

Another eye-catcher is the **ABT front grille** with its frame in the colour of the car, which also conveys a very sporty impression. And to make the driver behind you know that this is not an ordinary utility vehicle, **ABT Sportsline** crowns the T5 with a discreet rear spoiler. After all, you have to make up for the height lost through the new springs...
