

## **ABT Sportsline 2021 – Press Release – Week 35**

### **Autumn is coming: the ABT Power Days Attractive range of models from Golf VIII GTI to Audi SQ8**

Their great popularity has transformed the **ABT Power Days** into a firm tradition, dating back many years. From 30 September to 12 October this autumn, customers will once again be able to enjoy a 20 percent price saving that applies to all **ABT Power** and **ABT Power S** performance upgrades\*. Particularly large savings can be made on premium models such as the current RS 6. Fitted with **ABT Power S**, instead of 600 HP (441 kW), it delivers a staggering 700 HP (515 kW). Alongside this particular highlight, performance upgrades are available for many other Audi, VW, Seat, CUPRA or Skoda vehicles. At the heart of every **ABT Power performance upgrade** is the specially developed **ABT Engine Control (AEC)** unit. The power upgrade from **ABT Sportsline** is characterised by its outstanding quality and comprehensive protection. Further information at: [www.abt-sportsline.com/abt-power-days](http://www.abt-sportsline.com/abt-power-days).

The promotion applies to vehicles that are under two years old. If you would like to benefit from it, visit the company's headquarters in Kempten or any of over 100 participating **ABT dealers** throughout Germany. The only other condition: The product must also be installed there within the specified period. Appointments are available now and customers from Austria, Switzerland, Finland, Spain, Poland, Russia, Ukraine and South Africa are also eligible to take part in their respective countries.

A small excerpt from the whole range to awaken anticipation: With **ABT Power S**, the 4-litre diesel SQ8 with 435 HP (320 kW) is boosted to 510 HP (375 kW) and the Q5 2.0 TDI leaps from 204 HP (150 kW) to 235 HP (173 kW). A browse of the [ABT Online-Configurator](#) reveals a seemingly limitless range of "upgradable" vehicle models of all classes, group brands and body shapes, such as the Golf VIII GTI with the 2.0 TSI engine, which, thanks to **ABT Sportsline** goes from 245 HP (180 kW) to 290 HP (213 kW). Need more space? The most powerful VW T6.1 now delivers 226 HP (166 kW) instead of 199 HP (146 kW). A new addition to the range is **ABT Power** for the CUPRA Formentor, which reaches a peak power of 370 HP (272 kW). The standard model delivers 310 HP (228 kW). Another interesting vehicle is the Skoda Scala. With a little help from **ABT Sportsline**, the data sheet of the top model shows 190 HP (140 kW) instead of 150 HP (110 kW).

\*The engine performance data is in accordance with the stipulations of EWG/80/1269. The process and dynamometer manufacturer have been certified and authorised by the vehicle manufacturer. For further details, visit [www.abt-sportsline.com/performance-measurement](http://www.abt-sportsline.com/performance-measurement).
